Summary

Experienced Full Stack Developer with over 2.6+ years of experience in React js, Nodejs, Laravel, Vue js and MySQL. I shown my ability to create and handle scalable, high performance web applications. I am currently looking for an exciting position where I can utilize my skills and experience to contribute to company's success significantly.

- Laravel proficiency: In-depth knowledge of Laravel framework and REST API design.
- Full-stack experience: Proficient in React JS, NodeJS, and MySQL, enabling comprehensive web development from frontend to back-end.
- Scalability and performance: Proven ability to design and build high-performance, scalable web applications for diverse platforms.
- Collaboration and communication: Adept at working with UX teams and project managers to translate user needs into successful applications.
- Problem-solving skills: Creative and efficient approach to tackling technical and process challenges.
